#### Rugged HDPE shell

Thermoformed, thin walled HDPE shell is impact resistant while weighing less

HDPE is UV resistant and impervious to water and petroleum based products

#### Solid EPS foam core

Pre-molded EPS foam core is thermally fused to shell leaving no loose beads

No loss of buoyancy if shell is punctured

#### Quick Connect mounting strips

Four mounting strips run along the perimeter and under top surface

Lag screws can be placed along the strips without having to match up to preset holes

Top mount design eliminates cut outs and flanges thereby increasing buoyancy by as much as 10%, which reduces the number of floats required

# Launches

## Memorial Day

**National Marina Days** is a nationwide boating event dedicated to grow boating participation across North America. Marine businesses collaborate with each other and with their communities to hold events to introduce the public to boating through on-water and land side activities at marinas in every corner of the country. This event is run in partnership with National Great Outdoors Month!

NMD runs from Memorial Day through Labor Day and is supported by the Association of Marina Industries and all the marinas who join us to celebrate.

The Professional Marina Resource Guide is brought to you as a service of the Association of Marina Industries (AMI). All companies in the Guide are members of AMI. AMI represents a diverse membership of over 1,100 marinas, boatyards, yacht clubs, and public/private moorage basins around the world. These companies provide slip space for over 165,000 recreation watercrafts and employment for over 8000 marine tradesmen and women. AMI is an affiliate of the National Marine Manufacturers Association.

This guide merely serves as an informational resource to allow marina industry representatives access to other professionals in the industry who can provide desired products or services. AMI does not specifically endorse any products or services of one company over another in the industry.

For more information on the Association of Marina Industries, please check out our website at [www.MarinaAssociation.org](http://www.MarinaAssociation.org) or call our toll-free line at (866) 367-6622.
